St Monica's Primary School, EVATT

Annual Improvement Plan

2017
School Context:

St Monica’s is a child-centred Catholic learning community, supporting families in the Canberra suburbs of Evatt, Melba, Spence and McKellar. St Monica’s is among the larger Catholic primary schools in Canberra enrolling over 450 boys and girls, with two or more classes in each year from Kindergarten to Year 6.

We believe our school community is unique promoting a strong values program and offers all children many opportunities to enable them to reach their full potential. St Monica's is committed to providing innovative, state of the art learning facilities where parental involvement is encouraged and valued.

As a learning community, the staff at St Monica's provides an enriched, holistic, integrated curriculum in which the gospel values are central to all learning experiences, thus integrating faith and life, in cooperation with our Parish. St Monica’s strives to enable all students to achieve a high standard of learning and individual achievement by differentiating the curriculum to meet the various learning needs of students.

School Review Process

The School Improvement Framework seeks to integrate the statutory requirements for the Registration of Archdiocesan schools with a cyclical model for school development. The program operates within a cycle and has a focus on schools being engaged in a model of self-review, using the National School Improvement Tool.

Internal School Review (ISR) is an evaluative process for regular reflection and review of the school. The ISR process is coordinated by the School Leadership Team, with input from staff and members of the school community. It is underpinned by evidence and making judgments about the school’s capacity in 10 inter-related domains.

Verification of the self-review will be provided by personnel from the Catholic Education Office.

The Aboriginal and Torres Strait Islander Education Action Plan

The Aboriginal and Torres Strait Islander Education Action Plan is a national plan that commits all schools to a unified approach to close the gap in education outcomes between Aboriginal and Torres Strait Islander students and non-Aboriginal and Torres Strait Islander students. The plan contains six principles and from, these principles the following outcomes are most significant for our school. The outcomes are achieved by implementing a school improvement plan that is based around the National School Improvement Tool.

• All compulsory school-aged Aboriginal and Torres Strait Islander children and young people are enrolled in school and progressing through schooling at the same rate as non-Indigenous students.
• Aboriginal and Torres Strait Islander students are engaged in and benefiting from schooling.
• Aboriginal and Torres Strait Islander students and communities are empowered through the promotion of their identity, culture and leadership in community partnerships with providers of early childhood and school education.
• Aboriginal and Torres Strait Islander students are meeting basic literacy and numeracy standards and overall levels of literacy and numeracy achievement are improving.
• High performing principals and teachers are effective in supporting Aboriginal and Torres Strait Islander students to become successful learners, confident and creative individuals and active and informed citizens.
• Aboriginal and Torres Strait Islander students benefit from school leaders who have a strong understanding of their students’ cultural and linguistic backgrounds.

National Safe Schools Framework

The National Safe Schools Framework provides Australian schools with a vision and a set of guiding principles that assist school communities to develop positive and practical student safety and wellbeing policies.

The vision is supported by guiding principles for safe, supportive and respectful school communities. These guiding principles emphasise the importance of student safety and wellbeing for effective learning in all school settings.

Australian schools:

• commit to developing a safe school community through a whole-school and evidence-based approach
• affirm the rights of all members of the school community to feel safe and be safe at school
• acknowledge that being safe and supported at school is essential for student wellbeing and effective learning
• accept responsibility for developing and sustaining safe and supportive learning and teaching communities that also fulfill the school’s child protection responsibilities
• encourage the active participation of all school community members in developing and maintaining a safe school community where diversity is valued
• actively support young people to develop understanding and skills to keep themselves and others safe

These guiding principles are achieved by implementing a school improvement plan that is based around the National School Improvement Tool.
